

## Acqua S. Bernardo is the official water of the Granfondo

### "La Fausto Coppi Officine Mattio"

During intense physical activity, heat and sweating involve significant losses of water and salts. The drink that our body is able to absorb better is definitely water.

With its lightness characteristics, Acqua S. Bernardo is the perfect ally for every physical effort. Also for this reason we are happy to be the Official Water of the 32nd edition of the international Granfondo "La Fausto Coppi Officine Mattio" with departure and arrival in Cuneo on June 30th. In a spirit of gratitude and closeness to the land and the mountains, from which Acqua S. Bernardo flows pure, at 1,300 meters above sea level, we are proud to accompany and quench the passion for bike in this 177 and 111 kilometer journey, with slopes record.

And those who get in the saddle, at any level, always remember to drink and eat even before and after training. The stimulus of thirst can sometimes be late, but we always advise you to bring with you a half-liter bottle of Acqua S. Bernardo, it fits perfectly in the bottle cage. "We at Acqua S. Bernardo have always been close to the world of sport and the traditions of the territory - explains the general manager Antonio Biella - "The Fausto Coppi Officine Mattio "is the perfect combination of these two souls. It is a consolidated event with a mythical flavor, referring to the figure of the Campionissimo, a great figure from Piedmont, the land of our water. Coppi remains an idol for everyone, especially for cyclists, from professionals to amateurs like me. Any fan, pedaling, especially uphill, when the forces seemed to be lacking, to find the strength to reach the peak was inspired by the elegant figure of the Airone when he faced epic exploits at the Giro or the Tour ".

"The unique beauty of the mountains of Cuneo on which the Granfondo rises. The call to the great Fausto and the lightness of our water, ready to quench all the participants' thirst. It is hard to think of a more beautiful framework to express the greatness of this sport "concludes Antonio Biella.
